Volume IV: Knowledge Production, the Discrete Leviathan, and a Brief History of Promises

Chapter 23: A Brief History of Academic Knowledge Production—Publication, Evaluation, and the Growth of Knowledge

- Abstract
- Keywords
- §0.1 The Three Terms and the Increment Claim
- §0.2 Structural Pressure and Discretization
- §0.3 Closed-Loop Self-Reinforcement: Where the Mechanisms Sit in Earlier Chapters
- §0.4 Why Retreat Is Difficult: Algorithmic *Xiangyuan* and Affective Attachment
- §0.5 The Triadic Positions and Terminological Alignment with the Fiber Framework
- §0.6 The Calibration Claim
- §1 From the Republic of Letters to the Knowledge Industry
  - §1.1 The Pre-Journal Era: The Social Circulation of Knowledge
  - §1.2 The Birth of the Journal: The Organization of Records and Priority (1665–1800)
  - §1.3 The Era of Institutionalization: The Formation of the Functional Circuit (1800–1945)

  - §1.4 The Commercial Turning Point: The Binding of the Three Lines (1945–1990)
  - §1.5 The Digital Era: Concentration Rather than Dispersion (1990 to the Present)
- §2 Pathological Recursion: When the Circuit's Output Points to the System Itself
  - §2.1 The Rise of Audit Culture
  - §2.2 The Reversal from Functional to Pathological
  - §2.3 Mechanisms of Pathological Recursion
- §3 A Multidimensional Diagnosis of the Evaluation Crisis
  - §3.1 The Debate over the Turning Point: Was There a Functional Golden Age?
  - §3.2 The Debate over Mechanism: When Metrics Become Targets, How Does Gaming Become the Norm?
  - §3.3 The Debate over Structure: Individual Moral Failure or Institutionalized Corruption?
  - §3.4 The Debate over Deepening: Manipulation Escalates from Content to Signals
  - §3.5 The Debate over Domains: Do Different Disciplines Face the Same Problem?
  - §3.6 The Epistemological Debate: What Has the Publication System Done to Knowledge Itself?
  - §3.7 The Counterfactual Debate: Can It Be Reversed?
- §4 Cross-National Comparison: The Same Pressures, Different Institutional Responses
- §5 Core Concepts
  - §5.1 The Fiber
  - §5.2 The Mapping Function
  - §5.3 Dynamic Corrosion
  - §5.4 Ontological Dimension Reduction
  - §5.5 Visible and Hidden Subspaces
  - §5.6 The Pseudo-Small Fiber
  - §5.7 Narrative Load
  - §5.8 Cognitive Debt and Shadow Debt
  - §5.9 The Time Dimension and the Clock Dimension
  - §5.10 The Baroque
- §6 Academic Lineage
- §7 The Fiber Diagnosis of the Academic Publication Indicator System
  - §7.1 "Publish or Perish" as a Mapping System
  - §7.2 How Misuse of the Journal Impact Factor Creates Pseudo-Small Fibers
  - §7.3 Goodhart's Law as Dynamic Corrosion
  - §7.4 Rankings as Closed-Loop Pseudo-Calibration
  - §7.5 The Institutional Operation of Narrative Load
  - §7.6 The Three Clocks and the Dynamics of Cognitive Debt
  - §7.7 Discretization as the Meta-Operation of "Publish or Perish"
  - §7.8 MCAF Accounting and Derived Indicators: The Cognitive Reynolds Number and the Narrative Leverage Ratio
  - §7.9 Counterfactual Examination: Is Pathological Recursion Structurally Inevitable?
- §8 How Publication Growth Became Proof of Institutional Success
  - §8.1 Decomposing Real Growth into Different Knowledge Processes
  - §8.2 How Compliant Production Organizes Itself around Evaluation

  - §8.3 From Output Growth to Rule Self-Certification
  - §8.4 What Citation Models Can Clarify: The Impact Parameter and Hot Streaks
  - §8.5 From Structural Early Warning to the Judgment of Concrete Loops
- §9 Production, Dissemination, and Verification under AI Acceleration
  - §9.1 New Productive Capacity Enters Existing Incentives
  - §9.2 Completed Text Is Not Completed Research
  - §9.3 How Production, Review, and Summarization Form Pseudo-Calibration
  - §9.4 The Opportunity of Open Dissemination and the Cost of Verification
  - §9.5 Filtering Cannot Bring Back Research That Was Never Done
- §10 Disciplines, Institutions, and the Differences of Reform
  - §10.1 Disciplines Are Not Homogeneous Evaluation Environments
  - §10.2 Institutional Environments Shape How Indicators Operate
  - §10.3 "Unquantifiability" Is Not a Ground for Declining Explanation
  - §10.4 What Reforms Add in Discriminative Capacity
  - §10.5 Long-Term Support, Slow Science, and the Conditions of Change
- §11 Self-Reference: This Chapter as a Mapping Operation
- §12 Conclusion: Annotating the Fiber
  - §12.1 The Framework's Calibration Case and Unfolding Cases
- References
- Footnotes

Chapter 24: The Evolution of Financial Knowledge Production—Judgment, Models, and Market Feedback

- Abstract
- Keywords
- §1 The Object of Study: How Financial Knowledge Acquires the Qualification for Action
  - §1.1 Judgment, Calculation, and Transaction Records Are Not the Same Kind of Knowledge
  - §1.2 The Central Question of This Chapter: How Use Changes Subsequent Evidence
  - §1.3 Fiber Analysis: What Other States Remain Compatible with the Same Reading
  - §1.4 From Compatible States to Historical Process
  - §1.5 Five Kinds of Success and Their Evidentiary Boundaries
- §2 How Computable Inputs Are Produced
  - §2.1 Portfolio Selection First Drew a Boundary
  - §2.2 Historical Data Is Research Infrastructure Built by Institutions
  - §2.3 Analysts Produce More Than Forecast Numbers
  - §2.4 Approximation Error and Prediction Error Must Be Separated
  - §2.5 Responsibility for Application Cannot Be Canceled by the Label "Framework"
  - §2.6 Historical Data Has Not Made Judgment Disappear
  - §2.7 Inputs Enter Computation with Their Conditions of Production
- §3 How Tools Acquire Qualifications for Use and Professional Recognition
  - §3.1 Risk Adjustment Becomes a Service for Evaluating Investment Managers
  - §3.2 The Evaluation Benchmark Itself Carries Model Conditions

  - §3.3 The Index Turns from Comparison Benchmark into Investment Product
  - §3.4 Professional Recognition and Actual Adoption Are Not the Same
  - §3.5 Paper Pricing Sheets Bring Formulas into the Trading Floor
  - §3.6 Shared Scales and Distributed Judgment
  - §3.7 Automated Quotation Places the Model into Public Readings
- §4 How Market Evidence Changes after Adoption
  - §4.1 Models Provide Both Prices and Action Instructions
  - §4.2 Use May Bring Price Relations Closer to the Model
  - §4.3 Reverse Calculation Can Organize Judgment, but Cannot Generate Independent Evidence from Nothing
  - §4.4 Predicting Prices Is Not the Same as Revealing Information Needed for Action
  - §4.5 Publication and Adoption May Shrink Original Return Opportunities
  - §4.6 Shared Verification Can Also Lose Independence
  - §4.7 Information Production Itself Also Requires Incentives and Procedures
- §5 Portfolio Insurance: Shared Execution Conditions, Risk Knowledge, and Layered Correction
  - §5.1 Different Performance States behind the Same Protection Floor
  - §5.2 How Local Protection Changes Shared Execution Conditions
  - §5.3 Why Recognized Risk Failed to Change Adoption
  - §5.4 Execution Divergence and Client Outcomes in the 1987 Crash
  - §5.5 Shared Language Can Record Anomalies
  - §5.6 How Risk Awareness Enters Shared Rules
  - §5.7 Repairing the Model and Repairing the Conditions of Use Are Not the Same Thing
- §6 Conclusion: What Can Still Serve as Evidence of Knowledge Growth
  - §6.1 Functionality and Pathology Cannot Be Divided by Era or Model Name
  - §6.2 Financial Verification Conditions and Their Limits
  - §6.3 Four Kinds of Outcomes Settled Separately
  - §6.4 What Independent Verification Must Be Preserved after Successful Use
- References

Chapter 25: The Discrete Leviathan—Definition, Historical Comparison, and the Structure of Power

- Abstract
- Keywords
- §1 From Using Services to Depending on Rules
  - §1.1 Why an Object beyond the Individual Platform Needs to Be Identified
  - §1.2 What “Leviathan” and “Discrete” Each Denote
  - §1.3 The Four Discriminant Dimensions and Their Different Standing
  - §1.4 A Concrete Cross-Section: How Search and Advertising Are Connected
  - §1.5 How Topological Relations Enter Human Time and Belief
- §2 How Knowledge Is Organized: From University Training to the Sustained Formation of Belief
  - §2.1 The Medieval Faculty of Arts: The Institutional Production of Forms of Knowledge
  - §2.2 The Ramist Rearrangement: How Invention, Judgment, and Expression Were Separated

  - §2.3 Bacon: The Time Lag between Easy Assent and Worthy Belief
  - §2.4 Pascal: Belief Is Not Formed in a Single Argument
  - §2.5 Bernoulli: Judgment and Action under Incomplete Certainty
  - §2.6 From Judgments about the Future to Action in the Present
- §3 Salvation and Commercial Rule: Two Historical Comparisons That Must Not Be Merged
  - §3.1 Time, Relations, and Mediation in the Belief in Purgatory
  - §3.2 The East India Company: How Private Gain and Public Rule Combined
  - §3.3 The Uses and Limits of Historical Comparison
- §4 The Commercialization of Advertising: The Organization of Promises, Distribution, and Audiences
  - §4.1 The Competition of Promises as Johnson Saw It
  - §4.2 How Brand Advertising Changed the Balance of Distribution
  - §4.3 The Images of Life in Advertising Are Not a Direct Mirror of Society
  - §4.4 Why Media Face Audiences and Advertisers at Once
  - §4.5 Installment Buying and Model Changes: How Waiting Acquired New Meanings
- §5 Mass Communication and Behavior Design: From Organizing Opinion to Arranging Interaction
  - §5.1 Bernays's Claim as a Self-Description of His Profession
  - §5.2 Packard Recorded a Body of Persuasion Knowledge in Commercial Operation
  - §5.3 How Behavior Design Intervenes in the Conditions of Action
- §6 How Relational Structures Change Belief and Intertemporal Choice
  - §6.1 Accessing the Same Information and Knowing That Others Have Accessed It Are Not the Same
  - §6.2 Which Conditions of Verification Personalization Changes
  - §6.3 Fiber Analysis: What a Given Reading Actually Rules Out
  - §6.4 When Feedback Aids Cognition and When It Replaces It
  - §6.5 Changes in Belief: Materials, Habits, and Expectations about Others
  - §6.6 Time Preference, the Credibility of the Future, and the Rhythm of Action
- §7 The Practical Boundaries of State, Capital, and Private Governance
  - §7.1 A Trans-Sovereign Network Is Not a Stateless Network
  - §7.2 Transparency, Countermeasures, and Changing the Rules Are Not the Same Step
  - §7.3 The Disagreement between Technofeudal and Capitalist Explanations
- §8 The Specificity of the Contemporary Assemblage and the Maintenance of the Capacity for Judgment
  - §8.1 Returning from Historical Comparison to the Concrete Assemblage
  - §8.2 The Name Must Accommodate Counterexamples
  - §8.3 Discrete Control Facing Continuous Life
- References

Chapter 26: A Brief History of the Discrete Leviathan (Part I)—Collecting You (1994–2012)

- Abstract
- Keywords
- §1 The Establishment of the "Free" Order (1994–1998)
- §2 The Hotmail Contagion Chain: Users Become Transmission Nodes (1996–2007)
  - §2.1 The Crude Contagion Chain (Hotmail, 1996–1997)
  - §2.2 Turning Virality into an Equation (Plaxo, 2003–2007)

  - §2.3 The Moral Neutrality of the Mechanism
- §3 The Discovery of Behavioral Surplus: From Service Improvement to Selling Predictions (2000–2003)
- §4 Persuasion Engineering Enters the Product (2003–2010)
- §5 The Social Graph and the Capitalization of Data (2007–2012)
  - §5.1 Data Collection Apparatuses (Like / Connect / Open Graph)
  - §5.2 The Naming and Quantification of Free Labor
  - §5.3 The Absence of Governance
- §6 The Mobile Turn: The Material Preconditions of Always-On (2007–2012)
- §7 Why Governance Failed to Catch It (Cross-Cutting, 1995–2012)
- §8 By 2012: What Each of the Three Sides Left Behind (Handover to Chapter 27)
- References

Chapter 27: A Brief History of the Discrete Leviathan (Part II)—Understanding You (2012–2022)

- Abstract
- Keywords
- §1 The Reversal of Material Conditions: Mobile Overtakes Desktop (2012–2016)
- §2 The Product Reversal: From Timeline to Algorithmic Feed (2010–2018)
  - §2.1 Rebuilding the Visibility Regime (2010–2012)
  - §2.2 Format Compression and Real-Time Signals (2013–2015)
  - §2.3 From Real-Time to Right-Time: The Full Retreat of the Chronological Feed (2016–2018)
  - §2.4 Three Generations of Media Forms and the Transfer of Distribution Power
- §3 The Engineering Deployment of Variable Rewards (2014–2020)
- §4 TikTok: The Interest Graph Replaces the Social Graph (2016–2022)
  - §4.1 Architectural Innovation: Cold Start from Behavioral Signals
  - §4.2 The Distribution Funnel and the Alienation of Creators
  - §4.3 Economic Structure and Legal Recognition
- §5 Engagement Optimization and the Content Ecosystem (2018–2022)
  - §5.1 Engagement-Based Ranking and Information Distortion
  - §5.2 The Weaponization of Open Data (2018)
  - §5.3 Ecosystem Degradation
  - §5.4 Internal Knowledge, External Denial
  - §5.5 A Systemic Condition, Not Individual Pathology
- §6 Governance Responses (Cross-Cutting, 2012–2022)
  - §6.1 The Interface Bypass of Consent (GDPR and Deceptive Patterns)
  - §6.2 America's Legal Vacuum (§230 and the FTC)
  - §6.3 The Shift in the Evidentiary Landscape (Haugen and Molly Russell)
- §7 The Formatting of Expression: From Internalized Constraint to the Ascendancy of Rhetoric
  - §7.1 The Internalization of Constraint (2006–2013)
  - §7.2 The Industrialization of the Hook (2014–2018)
  - §7.3 Format Compression and Cognitive Rewiring
  - §7.4 From Logic to Rhetoric: The Ontological Turn of Media

- §8 By 2022: What Had Been Trained (Handing Over to Chapter 28)
- References

Chapter 28: A Brief History of the Discrete Leviathan (Part III)—Replacing You and the Double Diagnosis

- Abstract
- Keywords
- §1 The RLHF Bridge: Continuity from "Understanding You" to "Replacing You"
- §2 Threefold Zeroing: How the Training Chain Dismantles the Human Conditions of Audit
- §3 The Cloud Workshop: RLHF's Material Base
- §4 The Triple Illusion of Ground Truth
- §5 From Generation to Execution: The Discretization of Judgment and Action
- §6 Four-Stage Regression: From Cognitive Offloading to Will Offloading
- §7 The Automation Frontier of Relational Labor
- §8 Endogenous Rupture: The Pre-Contaminated Baseline and Recursive Amplification
  - §8.1 Model Collapse: The Standard Narrative
  - §8.2 The Pre-Contaminated Baseline: Reconnecting the Periodization
  - §8.3 Frictionless M2M Turbulence
  - §8.4 The Common Structure of Endogenous Rupture
- §9 Double Diagnosis and the Direction of Treatment
- References
- Footnotes

Chapter 29: The Economic Basis of the Discrete Leviathan's Distribution-Rights Monopoly

- Abstract
- Keywords
- §1 The Structural Migration of the Advertising Market: From Budget Shifts to Admission-Rights Monopoly
  - §1.1 Advertising and the Attention Economy: Three Layers of Primary Sources and the History of Naming
  - §1.2 Background Framework: Four Facts to Anchor First
  - §1.3 The Structural Collapse of Newspaper Advertising Revenue
  - §1.4 The Order of Death and the Gradient of Pricing Advantage
  - §1.5 Attention Admission Tickets: The Theoretical Framework of Prat and Valletti
  - §1.6 The State of Concentration in 2026
  - §1.7 Newspaper Decline as Long-Run Structural History: Three Independent Source Lines (Norris, Laird, Marchand)
- §2 The Legal Foundations and Technical Path of Distribution-Rights Migration
  - §2.1 The Dual Exemptions: How Section 230 and Section 512 Founded Platform Distribution Rights
  - §2.2 From Human Editors to Algorithmic Distribution: Thirty Years of Recommender Systems
  - §2.3 The Consequences of Distribution Dispossession: News Deserts

- §3 Producers Transformed by Platforms (I): Expression Compression and Content Degradation
  - §3.1 A History of Expression-Unit Deflation
  - §3.2 Clickbait as a Structural Product
  - §3.3 “Traffic-Monetization” Displacing “Creation-Reward”
- §4 Producers Transformed by Platforms (II): Labor Conditions in the Creator Economy
  - §4.1 The Scale and Illusions of the Creator Economy
  - §4.2 The Failure of the MCN System
  - §4.3 Platform Paternalism and the Politics of Visibility
  - §4.4 Labor Conditions: From Prosumer to Gig Worker
- §5 The Counterattack and Failure of Traditional Media: The Streaming Wars
  - §5.1 The Attempt and Cost of Vertical Integration
  - §5.2 The Mechanisms of the Distribution-Rights Battle: Input Foreclosure and Customer Foreclosure
  - §5.3 Netflix: Proof That Distribution Rights Matter More Than Content
  - §5.4 Disney+: The Cost of Traditional Media’s Digital Transition
  - §5.5 Summary: Why Vertical Integration Failed
- §6 The Transformation of Both Ends: The Formation of the Discrete Leviathan
  - §6.1 The Symmetric Structure of Two-End Transformation
  - §6.2 The Meaning of Being Driven Out of the Attention Market
  - §6.3 Early Omens of the Fourth Stage: From Distribution Rights to Generation Rights
- References

Chapter 30: A Brief History of Promises

- Abstract
- Keywords
- §1 Definition: Intertemporal Obligation and the Qualification for Judgment
  - §1.1 How Actions That Have Not Yet Happened Enter Present Life
  - §1.2 Johnson 1759: Arousing Attention and Selling Fame
  - §1.3 Rhetoric’s Concession: The Main History of Persuasion
  - §1.4 Promise, Prediction, Persuasion, Evaluation, and Reliance
  - §1.5 From Domain Comparison to a Shared Problem
- §2 Eastern and Western Threads: Inside the Apparatus and Outside It
  - §2.1 The Chinese Thread: From Oath and Covenant to the Reservation of Judgment
  - §2.2 The Western Thread: Convention, the Sword, and Capacity
  - §2.3 Where the Threads Converge: The Question of Qualification
- §3 Between Keeping Promises and Re-Judging
  - §3.1 Trustworthiness Alone Cannot Decide the Rightness of Action
  - §3.2 Why Present Regret Cannot Automatically Cancel Earlier Choices
  - §3.3 Whose Choice Gets Priority Protection
- §4 After the Promise Enters Institutions, Where Does Judgment Go?
  - §4.1 Outsourcing Execution Does Not Automatically Dissolve Responsibility
  - §4.2 Interpretation Is Itself a Normative Activity

  - §4.3 Performance, Compensation, and Restoration Are Not the Same Thing
  - §4.4 Measurable Risk and the Unmeasurable Remainder
- §5 Three Scenes: What a Metric Records Depends on What It Is Asked to Answer
  - §5.1 Academia: From "The Conclusion Is Reliable" to the Verifiability of Research Responsibility
  - §5.2 Finance: Prediction, Contract, and Fiduciary Duty Are Not One Report Card
  - §5.3 The Discrete Leviathan: Promise, Evaluation, and the Power of Interpretation Enter the Same Infrastructure
- §6 After AI Enters: Who Is Promising, and Who Is Bearing?
  - §6.1 The Three-Party Arrangement in Companionship
  - §6.2 A Conversational Persona Cannot Replace the Responsible Subject
  - §6.3 An Agent Can Act on One's Behalf; Authorization Must Still Have Content
- §7 Why Exit Does Not Equal Restoration
  - §7.1 Consequences Already Occurred and Conditions Still Changeable
  - §7.2 How Dependence Raises the Cost of Changing an Arrangement
  - §7.3 Re-Judgment Needs a Position from Which to Act
- §8 Conclusion: Keeping Promises Does Not Exempt Interpretation; Re-Judging Does Not Exempt Bearing
- References
